Greetings--Parents, School Administrators, and Church Leaders:

It is with great enthusiasm and pride that I encourage you to invite students in your home, school, or church to participate in a program for African-American males called **Project MALE** (***Making Aspiring Leaders Excel***). I am supportive of the program, and would like to see male students avail themselves of the features that this program offers.

Project **MALE** is a collaborative effort of various organizations in Southern Dallas County united to create a student success program for African-American males in Kindergarten through fifth grade. The focus is on character and leadership activities that will enhance the success of our young men.

Project MALE leaders envision 2-3 hour monthly sessions connected to program objectives delivered through five (5) content topics: Education, Social/Emotional Development, History/Cultural Awareness, Self-Efficacy and Management, and Healthy Lifestyles. Parents desiring their young males to participate in the program should click on the following link to complete the Online Registration Form:
